

BRIGAD

Bridging the Gap for Innovations
in Disaster Resilience

H2020

Disaster Resilience & Climate Change topic 1c

24 partners

Grant: 7.7 M€

PROBLEM SETTING

- + **IPPC:** Europe is particularly prone to:
 - river and coastal flooding.
 - extreme droughts and water shortages
 - damages by extreme weather.
- + **Evaluations:** innovations offer huge potential for risk reduction.
- + **Future:** Many innovative ideas hardly or never reach the market.

INNOVATION EXAMPLE

All in 2013

Idea ➤ Prototype ➤ Patent ➤ TU Delft (Test -Location) ➤ Climate KIC

ARE INNOVATIONS READY FOR UPTAKE?

BRIGAID approaches climate adaptation
innovations by evaluating:

1

**Technical
Readiness**

2

**Social
Readiness**

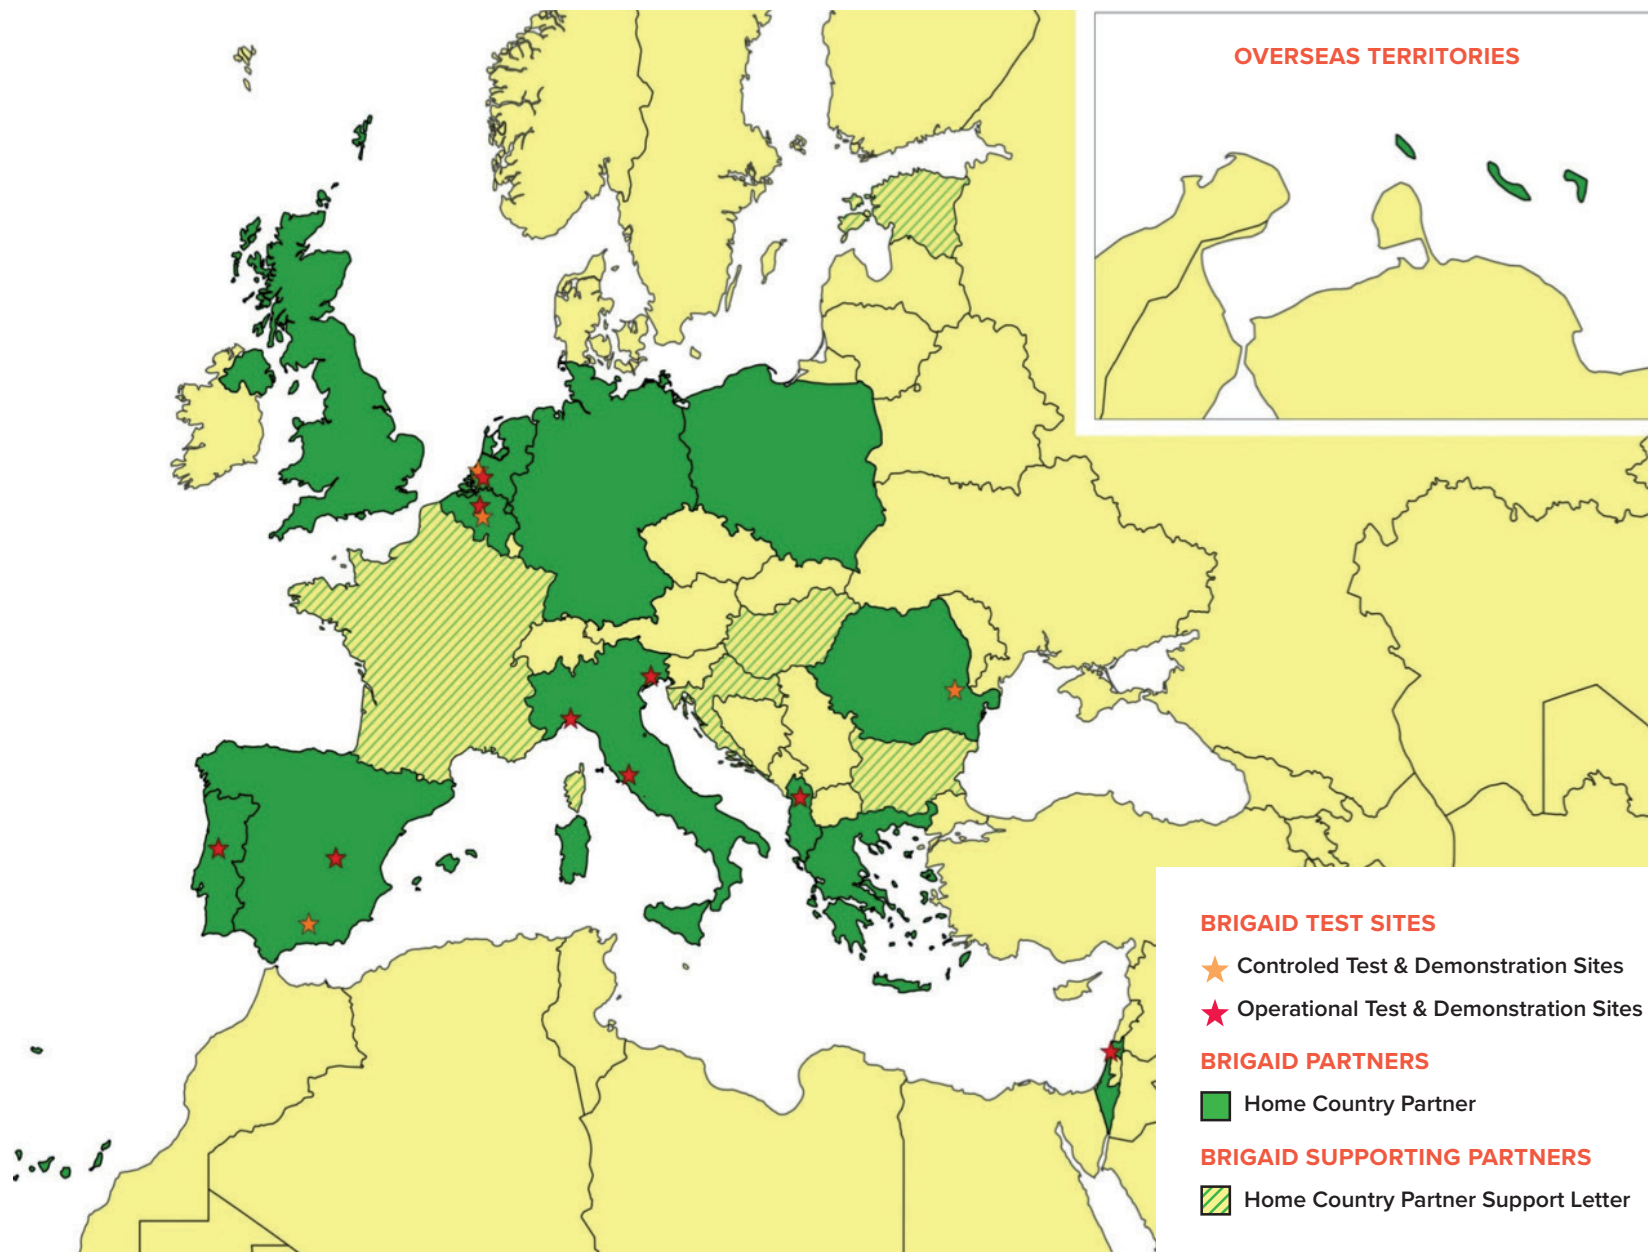

3

**Investment
Readiness**

BRIGAD

- + Brings together innovators and end-users in Communities of Innovation for increased opportunities for market-uptake.
- + Develops technological and performance standards by providing a Test and Implementation Framework (TIF) and test facilities throughout Europe.

We'll bridge the gap
